

Directions: As you study Matthew 6, spend some time answering the following question(s):

Similarly to last week, we will continue studying terms. This week, we will continue to define many of the terms that come up throughout the chapter. Please define the following terms in your own words without consulting a dictionary or commentary. Then look them up in a commentary, a dictionary, even the Bible (often the Bible defines itself!). There is a link to an online Biblical dictionary below that may help.

Also, in preparation for next week's assignment, we will begin learning how to “parse” words in a passage. Welcome back 8th grade english class =) But seriously, parsing can really help us to understand what the author is trying to communicate to us. Remember, God didn't waste words in the Bible, and there are very specific reasons why certain verbs are past tense, why certain nouns are pluralized, etc. Our job is to figure out the significance.

Hypocrites:

Forgive:

Fasting:

Temptation:

Worry:

Also, list out all the “non-routine” verbs in this chapter. A routine verb would be something like is, was, etc. Non-routine would be things like eat, add, reap, etc.
